## Biography

An imaginative project and multimedia vision, Futurist is an experimental/ indie rock band that blends nuanced, earnest song writing with an intense rhythmic drive and sonic palette. Using midi/analog effects, looping, and unparalleled amounts of energy, Futurist produces a wall of sound that uplifts and inspires within an interactive environment. The vision of Futurist is commonly about collaboration, combining the use of costumes, stage decoration, projections and lighting, and audience interaction into their live shows.

## Press

"In the video of their single "Antihero", Brooklyn Folk Poppers Futurist make the most convincing argument for "So You Think You Can Dance: Williamsburg" we've ever seen. The band released their debut album "War Is Yesterday" in June, with a party involving over 50 (fifty!) interdisciplinary artists. This video was selected to be projected in between bands at The Deli/ INDMUSIC CMJ Music Marathon Shows."

"So I'm having trouble deciding which is better: the song itself or the music video? Either way, it's safe to say that Futurist's latest single "Antihero" off their upcoming album *War Is Yesterday* is a song that is made up of just the right amount of toe-tapping rhythms and feel good vibes that'll have you coming back for more. Plus that dual-guitar breakdown around the 2:10 mark is pure Steely Dan-ish, which fills me with all sorts of joy."
